SANFORD SUBSTITUTE FOR SB302

SYNOPSIS: Under existing law, counties and municipalities are authorized to form an authority to acquire real and personal property for lease to the United States.

This bill would allow the creation of such an authority for the purpose of acquiring real and personal property for lease to the State of Alabama as a prison facility.

The bill would also authorize the Department of Corrections to enter into a lease of a regional prison facility with up to three of the authorities.

Under existing law, the Alabama Corrections Institution Finance Authority is authorized to issue bonds for prison construction purposes.

This bill would allow the authority to issue additional bonds in the amount of $100 million for the purpose of financing the renovation of existing prison facilities if an agreement to lease at least
two facilities from the local authorities is in place.

The bill would pledge a portion of the taxes on the leasing or renting of tangible personal property to secure the bonds.

Section 4. Section 11-101A-8.1 is added to the Code
of Alabama 1975, to read as follows:

(a) Any regional prison facility constructed by an
authority shall be constructed on land leased from the state
or donated by the county or municipality creating the
authority. The Governor may enter into a lease of state
property with an authority. Upon the final payment of any
indebtedness incurred by the authority for the construction of
the regional prison facility, the lease shall terminate and
title to the regional prison facility shall be vested in the
state. To enter a lease under this section, an authority, or
county or municipality contemplating the creation of an
authority must send a letter of intent to enter a lease to the
department within 90 days of the effective date of the act
adding this section. If a letter of intent is from a county or
municipality that has not created an authority for purposes of
constructing a regional prison facility under this section,
the county or municipality shall adopt an authorizing
resolution within 60 days of sending the letter of intent. An
authority may not enter into the lease later than the date
established by rule of the department after the plans and
specifications for the regional prison facility are approved by the department and the division.

(b) The construction shall be done according to plans and specifications of architects or engineers, or both, selected by the department. Such plans and specifications shall be developed in cooperation with any authority or authorities that have filed a letter of intent and shall be approved by the department and by the division. The department shall adopt rules under the Administrative Procedure Act providing for the selection of a project management team and site selection for any regional prison facility constructed under this chapter. All work in the construction of any regional prison facility, or any part thereof, which is determined by the division to be suitable and proper for construction by prison labor under force account shall be performed by prison labor under the supervision and directions as shall be ordered by the department. All construction of any regional prison facility or any part thereof which the division shall determine not to be suitable and proper for construction by prison labor shall be done under the supervision and direction of the division following award for each part of the work to the lowest responsible bidder after advertising for, receipt, and public opening of sealed bids. Deductive alternate bids may be used in order to reduce the base bid to an amount within the funds available for the project. Additive alternate bids may be used in order to obtain prices for the addition of items not included in the
base bid. The alternate bids shall be listed in the bid
documents in the order of priority in which they shall
cumulatively deduct from or add to the base bid for
determining the lowest responsible and responsive bidder.

After the lowest responsible and responsive bidder has been
determined, any alternates may be accepted or rejected
provided that the combination of accepted alternates results
in the same lowest bidder. If no bid is deemed acceptable by
the division and the authority, all bids may be rejected, in
which event bids may again from time to time be invited and
acted on as provided in this section. All contracts shall be
lump sum contracts. The entire work on a regional prison
facility may be divided into one or more contracts. All
contracts for the entire work on a regional prison facility
shall be awarded at the same time, but notice to proceed may
be withheld until prior work under another contract has
progressed to a point where the joint or following work can
best be coordinated for the earliest completion of the entire
project in a sound and workmanlike manner. Each contract shall
be executed by an authority upon the determination of the
division as to the lowest bidder. Payments made by an
authority under the construction contracts shall be upon the
contractor's written sworn request only if endorsed as
approved by the division or in any lesser amount the division
shall endorse as having been then earned on the contract.

After the contracts for a regional prison facility have been
awarded, the construction cost estimate shall be revised and
all extras on the contracts shall be awarded within the funds available. An authority shall pay to the division as a part of the cost of constructing the regional prison facility the sums for the services of its employees as may be mutually agreed between the department and the division.

(c)(1) Each authority is hereby authorized to enter into a lease or leases of any regional prison facility constructed by the authority under this chapter with the department.

(2) The department may enter into a lease of a regional prison facility with up to three separate authorities.

(3) A lease shall be on the following terms:
   a. no lease shall be for a term longer than the then current fiscal year of the state;
   b. any lease may contain a grant to the department of successive options of renewing the lease on the terms specified therein for any subsequent fiscal year or years of the state; and
   c. liability for the payment of the rent under the lease shall never be for a term longer than the then current fiscal year of the state.

(4) Payment of rent by the department for any fiscal year shall be due in accordance with the provisions of any lease by an authority of any regional prison facility and upon being so paid, shall entitle the department to quick possession of the regional prison facility leased for the
remainder of the fiscal year. The rent for each fiscal year
during the lease agreement is in effect shall be due in
accordance with the provisions of the lease and the rent for
the fiscal year shall be payable, and any such covenant on the
part of the department shall be performed, solely out of the
current revenues of the state for the fiscal year. Rent may
not exceed thirteen million five hundred thousand dollars
($13,500,000) per year per regional prison facility, or the
cost of the principal and interest on the bonds for the
construction of each regional prison facility, whichever is
less. The rent payable and the covenants to be performed by
the department under the provisions of the lease shall never
create a debt of the state within the meaning of the
Constitution of Alabama of 1901, as amended.

(5) In the event that there shall be any default in
the payment of any rent required to be paid or in the
performance of any covenant required to be performed by the
department under the provisions of the lease while the lease
is in effect, an authority and any pledgee of the lease, by
any appropriate proceedings instituted within the time
permitted by law, may enforce and compel the payment of the
rent and the performance of the covenants in accordance with
the terms of the lease. No free use shall be made of any
regional prison facility of an authority so long as the
principal of or interest on any bonds, including refunding
bonds, issued by the authority remains unpaid.
(6) If a regional prison facility of an authority becomes vacant or is not used by the department, the department may not rent, purchase, acquire, construct, or lease any facility for penal or correctional use or renew any lease of a facility for penal or correctional use which may be used for any purpose for which any regional prison facility of the authority may be used, so long as the regional prison facility of the authority remains vacant or unused.

(d) If at any time a regional prison facility constructed by an authority is or about to be vacant or unused as a result of there being no lease for the regional prison facility in effect for the current fiscal year, the authority may lease the regional prison facility to any other agency, board, or department of the state, any municipal corporation, public corporation, county, or other public body in the state, or any agency of the federal government other than the original lessee of the regional prison facility. Any such lease shall not be for the purpose of lending public credit but shall be solely to avoid default on the authority's bonds and to insure the prompt payment of the principal thereof and interest thereon when due.

Section 5. The Alabama Corrections Institution Finance Authority shall report to the Joint Legislative Prison Committee on any plans for the demolition or disposal of any existing prison facilities pursuant to this act. In addition, the Department of Corrections shall report to the Joint Legislative Prison Committee and the Chairmen of the House
Ways and Means General Fund Committee and the Senate Finance and Taxation General Fund Committee on the operational savings directly realized as a result of the consolidation of prisons pursuant to this act. This operational savings report shall be made annually beginning on the date on which the first bond or lease payment is due, and continuing until all bonds authorized by this act have matured, been redeemed, or are otherwise no longer outstanding.

Section 6. Sections 14-2-1, 14-2-6, 14-2-12, 14-2-13.1, 14-2-14, 14-2-16, 14-12-19, 14-2-21, 14-2-28, and 14-2-34, Code of Alabama 1975, are amended to read as follows:

"(d)(e) Any bonds issued pursuant to this section shall be sold by competitive bid if practical and economically feasible as determined by the authority.

"(e)(f) The authority is strongly encouraged to utilize businesses and companies in all aspects of the bond and construction portions of this chapter that reflect the racial and ethnic diversity of the state.

"It is hereby further provided that no refunding bonds as provided for by Section 14-2-13 shall be issued unless the present value of all debt service on the refunding bonds (computed with a discount rate equal to the true interest rate of the refunding bonds and taking into account all underwriting discount and other issuance expenses) shall not be greater than 95% 98 percent of the present value of all debt service on the bonds to be refunded (computed using the same discount rate and taking into account the underwriting discount and other issuance expenses originally applicable to such bonds) determined as if such bonds to be refunded were paid and retired in accordance with the schedule of maturities (considering mandatory redemption as a scheduled maturity) provided at the time of their issuance. Provided further that the average maturity of the refunding bonds, as measured from
the date of issuance of such refunding bonds, shall not exceed
by more than three years the average maturity of the bonds to
be refunded, as also measured from such date of issuance, with
the average maturity of any principal amount of bonds to be
determined by multiplying the principal of each maturity by
the number of years (including any fractional part of a year)
intervening between such date of issuance and each such
maturity, taking the sum of all such products, and then
dividing such sum by the aggregate principal amount of bonds
for which the average maturity is to be determined.

"§14-2-14.

"Any bonds of the authority may be executed and
delivered by it at any time and from time to time, shall be in
such form and denominations and of such tenor and maturities,
shall bear such rate or rates of interest payable and
evidenced in such manner, may contain provisions for
redemption prior to maturity and may contain other provisions
not inconsistent with this section, all as may be provided by
the resolution of the board of directors whereunder such bonds
are authorized to be issued; provided, that no bond of the
authority shall have a specified maturity date later than 20
30 years after its date. In the event that the authority shall
make more than one pledge of the same revenues, such pledges
shall, unless otherwise provided in the resolution or
resolutions authorizing the earlier issued bonds, take
precedence in the order of the adoption of the resolutions in
which the pledges are made; provided, that each pledge for the
benefit of refunding bonds shall have the same priority as the pledge for the benefit of the bonds refunded thereby.

"§14-2-16.

"Bonds of the authority may be sold at such price or prices and at such time or times as the board of directors of the authority may consider advantageous, either at public sale or private sale. Bonds of the authority sold by competitive bid must be sold, whether on sealed bids or at public auction, to the bidder whose bid reflects the lowest effective borrowing cost to the authority for the bonds being sold; provided, that if no bid acceptable to the authority is received, it may reject all bids. Notice of each such sale by competitive bids shall be given by publication in either a financial journal or a financial newspaper published in the City of New York, New York, and also by publication in a newspaper published in the State of Alabama, each of which notices must be published at least one time not less than 10 days before the date for the sale. The board of directors may fix the terms and conditions under which such sale may be held; provided, that such terms and conditions shall not conflict with any of the requirements of this chapter. The authority may pay out of the proceeds of the sale of its bonds all expenses, including capitalized interest during a period not to exceed one year three years from the date of issuance of such bonds, publication and printing charges, attorneys' fees and other expenses which said board of directors may deem necessary and advantageous in connection with the
authorization, advertisement, sale, execution and issuance of such bonds. Neither a public hearing nor consent of the State Department of Finance or any other department or agency of the state shall be a prerequisite to the issuance or sale of bonds by the authority.

"§14-2-19.

"(a) All proceeds derived from the sale of any bonds, except refunding bonds, sold by the authority, remaining after payment of the expenses of issuance thereof, shall be turned over to the State Treasurer, shall be carried in a special account to the credit of the authority, and shall be subject to be drawn on by the authority solely for the purposes of:

"(1) Acquiring land for and constructing, reconstructing and equipping thereon one or more facilities;

"(2) Constructing additional improvements on property currently owned by the Department of Corrections or the authority in order to provide for additional bedspace;

"(3) Paying all reasonable and necessary expenses incidental thereto, including filing, recording, surveying, legal and engineering fees and expenses;

"(4) Paying the interest which will accrue on the said bonds during the period required for the construction and equipment equipping of the said facilities and for a period not exceeding six months after the completion thereof; and
"(5) Paying the principal of and interest on all then outstanding notes theretofore issued by the authority pursuant to the provisions of Section 14-2-10; and

"(6) Paying for costs of alteration, remodeling, and renovation of facilities of the department, as determined by the department.

"The balance of the said proceeds thereafter remaining, unless required for the construction of other facilities by the authority as shall be determined by resolution of its board of directors within six months after completion of the facilities for which the bonds were issued, shall be set aside as additional security for the bonds or shall be used to pay, purchase or redeem bonds as may be provided in the proceedings authorizing their issuance. The reasonable and necessary expenses incident to the construction of any facility shall, if deemed advisable by the authority, include all or any part of the expense of providing temporary facilities, during the construction of a new facility, for any penal or correctional institution facility which is demolished or rendered unserviceable as such.

"(b) All proceeds from the sale of refunding bonds issued by the authority that remain after paying the expenses of their issuance may be used only for the purpose of refunding the principal of and any unpaid and accrued interest on the outstanding bonds of the authority for the refunding of which the refunding bonds are authorized to be issued,
together with any premium that may be necessary to be paid in
order to redeem or retire such outstanding bonds.

"§14-2-21.

"(a) The principal of, premium, if any, and interest
on the bonds of the authority shall be secured, first, by any
or all of the following, as the authority may determine:

"(1) The rent and revenue for the use of one or more
facilities of the authority;

"(2) The net rent or sale proceeds from the Kilby
property;

"(3) Any bond proceeds remaining unexpended upon
completion of all facilities to be constructed with such bond
proceeds and the payment of the cost thereof;

"(4) Any insurance proceeds which the authority may
receive by reason of its ownership of any of the facilities; and

"(5) Any mortgage upon or security interest in one
or more facilities of the authority, granted in connection
with the issuance of such bonds; and

"(6) Operational savings realized from the
consolidation of prison facilities as a result of this
amendatory act.

"(b) To such extent and to such extent only as the
revenues described in subsection (a) may not be sufficient to
pay at their respective maturities the principal of and
interest on the bonds of the authority, there is irrevocably
pledged and appropriated, as a second priority security, so
much of the portion of the net proceeds of the tax on the
leasing or renting of tangible personal property under Section
40-12-227, as may be necessary, when added to the amounts
described in subsection (a), for the purpose of providing
funds to enable the authority to pay at their respective
maturities and due dates the principal of and interest on the
bonds that may be issued by it under this article at any time.
The revenues pledged by this subsection shall be limited to
the payment of debt service on the bonds authorized by this
amendatory act, including debt service on any refunding bonds
issued to refund the bonds authorized by this amendatory act.

"(c) The authority shall have authority to transfer
and assign any lease of any of the facilities and any lease or
mortgage of the Kilby property as security for the payment of
such principal, premium, if any, and interest. The bonds may
be issued under, and secured by, a resolution which may, but
need not, provide for an indenture of trust covering one or
more facilities of the authority. Such resolution or such
indenture of trust may contain any provision or agreement
customarily contained in instruments securing evidences of
indebtedness, including, without limiting the generality of
the foregoing, provisions respecting the collection and
application of any receipts pledged to the payment of bonds,
the terms to be incorporated in lease agreements respecting
the facilities, the maintenance and insurance thereof, the
creation and maintenance of reserve and other special funds
from such receipts and the rights and remedies available in
the event of default to the holders of the bonds or to the
trustee for the holders of the bonds or under any indenture of
trust, all as the authority may deem advisable and as shall
not be in conflict with the provisions of this chapter;
provided, however, that in making such agreements or
provisions the authority shall not have the power to obligate
itself except with respect to its facilities, the Kilby
property and the application of the receipts which it is
authorized in this chapter to pledge.

"(d) For each fiscal year in which the department,
under a lease agreement with the authority, is required to pay
rent to the authority in an amount at least equal to the
annual debt service on bonds issued pursuant to the act adding
this amendatory language, the department, from the amount
appropriated to it in each annual general fund appropriations
act, shall pay the rent payments as a first priority
expenditure, and all other expenditures of the department for
each fiscal year shall be adjusted accordingly.

"§14-2-28.

"All facilities constructed by the authority shall
be constructed according to plans and specifications of
architects or engineers, or both, selected by the department.
Such plans and specifications shall be approved by the
department and by the commission. All work in the construction
of facilities, or any part thereof, which is determined by the
commission to be suitable and proper for construction by
prison labor under force account shall be performed by such
prison labor under such supervision and directions as shall be ordered by the department. All construction of facilities or any part thereof which the commission shall determine not to be suitable and proper for construction by prison labor shall be done under the supervision and direction of the commission following award for each part of the work to the lowest responsible bidder after advertising for, receipt and public opening of sealed bids. Each such invitation for bids and the bidding documents applicable thereto shall be so arranged that any alternates shall constitute cumulative deductions from the base bid rather than additions thereto. In determining the lowest bidder if funds are insufficient to construct the facility on the lowest base bid, then the commission may proceed to consider the bids upon the basis of the base bids of all bidders minus the respective reductions stated for the first alternate. If the lowest bid so determined is not then within the funds available, the commission shall proceed to consider the base bid minus the first and second alternates together to determine the lowest bid and in like manner throughout all alternates, if need be, so that in no event shall there be any discretion as to which alternate or alternates will be used in determining the lowest responsible bidder. Deductive alternate bids may be used in order to reduce the base bid to an amount within the funds available for the project. Additive alternate bids may be used in order to obtain prices for the addition of items not included in the base bid. The alternate bids shall be listed in the bid
documents in the order of priority in which they shall cumulatively deduct from or add to the base bid for determining the lowest responsible and responsive bidder. After the lowest responsible and responsive bidder has been determined, any alternates may be accepted or rejected provided that the combination of accepted alternates results in the same lowest bidder. If no bid deemed acceptable by the commission and the authority is received, all bids may be rejected, in which event bids may again from time to time be invited and acted on as provided in this section. All such contracts shall be lump sum contracts. The entire work on a regional prison facility may be divided into one or more contracts. All contracts for the entire work on a facility shall be awarded at the same time, but notice to proceed may be withheld until prior work under another contract has progressed to a point where the joint or following work can best be coordinated for the earliest completion of the entire project in a sound and workmanlike manner. Each contract shall be executed by the authority upon the determination of the commission as to the lowest bidder. Payments made by the authority under the construction contracts shall be upon the contractor's written sworn request only if endorsed as approved by the commission or in any lesser amount the commission shall endorse as having been then earned on said contract. After the contracts for a facility have been awarded, such construction cost estimate shall be revised and all extras on the contracts shall be awarded within the funds
available. The authority shall pay to the commission as a part
of the cost of constructing the facility such sums for the
services of its employees as may be mutually agreed between
the department and the commission.

"§14-2-34.

"When all bonds and securities issued by the
authority and all obligations assumed by it under the
provisions of this chapter shall have been paid in full, the
then president of the authority shall thereupon execute and
deliver in the name of, and in behalf of, the authority an
appropriate deed or deeds, to which the seal of the authority
shall be affixed and attested by the secretary of the
authority, conveying all facilities and other assets then
owned by the authority to the state, except that no such
conveyance shall be required if the president of the authority
determines that the issuance of additional bonds to finance
improvements to existing facilities is contemplated. The then
officers and directors of the authority may, in their
discretion, at such time file with the Secretary of State a
written statement, subscribed and sworn to by each of them,
reciting the payment in full of all bonds theretofore issued
by the authority and the execution and delivery of such deed
or deeds, which statement shall be filed by the Secretary of
State and recorded with the certificate of incorporation of
the authority, and thereupon the authority shall stand
dissolved."
Section 7. (a) Separate and apart from the power granted to the authority in regard to the Kilby property in Section 14-2-26 and 14-2-27, and in addition to those powers, the authority shall have the power to sell, convey and lease all or any part of any real and personal property now or hereafter owned by it, together with the improvements thereon and ancillary thereto, that is not being used by the department as a facility, and the sale of which will not impair the outstanding obligations of the authority, and as an aid to the sale or lease, to cause to be prepared by competent real estate experts a land use map and plan. The authority may lease or sell lands and property owned by it without going through the Lands Division or in any other way complying with the provisions of Title 9, Chapter 15, Article 3, Code of Alabama, 1975. The authority must have duly adopted written policies and procedures governing the sale or lease of the property which invoke open competition and produce the best price, to include obtaining an appraisal, advertising the sale or lease and conducting the sale by public auction or publicly sought sealed bid. No such sale or lease shall be made except at public offering, on sealed bids or at auction, and upon such published notice as the authority shall determine to be necessary or desirable in order to attract the greatest interest from prospective bidders.

(b) The award of any property offered for sale or lease shall be made to the highest responsible bidder unless all bids shall be rejected as inadequate and other public
offering shall be made upon notice republished as prescribed above. Any sale shall be for all cash. Each deed or lease to effectuate any sale or lease shall be signed in the name of the authority by its president, to which the seal of the authority shall be affixed and attested by its secretary.

(c) The proceeds of each sale or lease of any such property shall be used first to pay the reasonable and necessary expenses of the sale or lease, and the balance remaining shall be paid to the State Treasurer and held by him in a special account and disbursed on order of the authority for any one or more of the following purposes:

(1) To acquire land for, and to construct, reconstruct, renovate, repair, maintain and equip one or more facilities; or

(2) To pay for such services, goods, repairs, renovations, construction, demolition, or other activities in or about facilities as may be deemed necessary by the board of the authority in the exercise of its sole discretion, to further the purposes of the authority or the department, including developing of a master plan for the use of the real or personal property that is owned by or which may be acquired by the authority for its statutory purposes, the preparation for sale or lease, or the preservation of, facilities or excess unimproved property owned for the authority; or

(3) To pay the principal of, and interest on, its bonds at maturity or upon refunding or redemption.
(d) The department will maintain all facilities not being used for the purposes designated in Section 14-2-1(6), and designated for sale, lease, demolition or other disposition, so long as title thereto is held by the authority, to enable the authority to achieve the best possible price or other result upon the sale, lease or other disposition thereof.

(e) Upon request of the authority the department shall convey to the authority any real and personal property to which the department holds title and acquired with proceeds of the authority's bonds or income thereon.

Section 8. Upon the regional prison facilities built by local prison authorities becoming operational, the department shall consolidate all operations housing medium or higher custody level male inmates into not more than six independent facilities. This limitation shall not apply if the future male inmate population increases above one hundred twenty-five percent of design capacity.

Section 9. Prior to the closing of a prison or correctional facility, the Department of Corrections shall determine whether a governmental entity has undertaken or incurred any debt to serve the existing facility. Any existing obligation of the Department of Corrections to the governmental entity shall continue unless negotiated otherwise.

Section 10. The construction or lease of new prison facilities and the renovation of existing facilities as
provided for in this act, shall not commence until the Alabama Corrections Institution Finance Authority or the state, or a subdivision thereof, shall have leased or purchased, or a combination thereof, the existing prison facility in Perry County for a purchase price not exceeding twenty million dollars ($20,000,000). The requirement to purchase the prison facility in Perry County is not required to be satisfied if:

(1) The Commissioner of Corrections certifies in writing to the Legislative Council that he or she has negotiated in good faith, but has failed to reach an agreement with the owner of the facility for the purpose of the purchase of the prison facility located in Perry County; and

(2) By a recorded majority vote of the members of the Legislative Council following review of the certification under subdivision (1), the council determines that the facility need not be purchased as provided in this section.

Section 11. A person or entity submitting a proposal for a project under this act shall disclose both of the following:

(1) The names of all lobbyists, attorneys, or other professionals or professional firms hired or retained by the person or entity on or after January 1, 2014.

(2) The names of all current or past elected officials or family members as defined in Section 36-25-1(15), Code of Alabama 1975, associated in any manner with the person or entity submitting the proposal or associated in any manner
with a subcontractor of the person or entity on or after January 1, 2014.
